MURPHY PUNISHES JUDGE PARKER FOR CLEVELAND EULOGY

Tammany Chief to Keep Former Candidate Off the Committee on Resolutions for Proposing a Plan Offensive to Bryan

> BY MARTIN GREEN, Staff Correspondent of The Evening World.

DENVER, Col., July 4.—Out of the inevitable dullness that surrounds a certainty the situation sprang into life and vigor last evening when Charles F. Murphy and the vanguard of the New York delegation reached Denver. The arrival of Mr. Murphy had been awaited with an eagerness that was almost painful by the Bryan boosters on the ground. They were anxious to know if the Democracy of the Empire State was behind Judge Alton B. Parker in his design to introduce resolutions Mammoth Gas Bags Ready to Armed Celebrator Slipped, and anent the career of the late Grover Cleveland which incorporate matters distasteful to Bryan and his followers.

They learned that Murphy had repudiated the Parker resolution while he was passing through Omaha. The Tammany spokesman, Dantel F. Cohalan, brought a message of peace and good will. He assured the Bryan men that the New York delegation, instead of trying to stir balloons are ready to start late this aft- far has not equalled its immediate preup trouble, is determined to bend every effort in the direction of the ernoon on a "Chicago to ocean" race,

It is believed by politicians here that Judge Parker gave out the Aeronautique Club text of his Cleveland resolution before he left New York for the purpose of putting forth a feeler to determine the sentiment of the Democracy. If so, it was a feeler with prongs to it. And it had a rebound.

In Chicago the powerful financial interests were arrayed against Roosevelt's radical proposition and won out. Here the financial interests allied with the Demonstrated in the same sort of a finish.

Of the Brown Palace Hotel quietly detached itself from its fastenings yester-day evening and dropped to the floor. No one picked it up and no one took enough interest to telephone over to the Gray headquarters. After about an hour a porter happened along, picked up the fallen lithograph and pushed it linto a wisste paper bag. The Gray campaign for the nomination will soon reach the same sort of a finish.

financial interests allied with the Democratic party are arrayed against Brycan's radical propositions—many of them almost identical with those of Roose. Velt—and Bryan has all the best of it.

Of course, the Bryanites will control the Committee on Resolutions, but will go into the sessions of that body in a greement upon the various planks under discussion, there will be a minority report presented to the convention by the Eastern members of the committee. This report will precipitate a much more picturesque and noisy fight than more picturesque and noisy fight than that in the convention at Chicago. The that in the convention at Chicago. The
